When using a **HDMI adapter** to connect to a **VGA cable**, you may need to change your audio settings.

1. Open the Control Panel: In the Start menu, search for “control panel” or click on “This PC,” then on “Open control panel.”

2. Click on **“Sound.”**

3. In the Playback tab, select Speakers as the default audio playback device.

4. Click “Apply”, then click “OK”.
